

Flag You by Gauri

When you're out of prep, so you play
slowly,
When you are low on time, but you're
up a piece,
When I should resign, but I play dirty,
It's time to premove.

It's a moral degradation show,
I won't take a draw, but I'll take your
Elo,
I'll keep giving checks, 'cause you're
so slow,
You're out of time.

[Chorus:]
Lag will slow you down,
You'll call me, call me a clown,
But I'll still try to flag you.

When you lose on time in online blitz,
Then you bang your desk and hurt
your wrist,
And you smash your mouse to tiny
bits,
Was it insured?

[Chorus]

Mouse parts fly past your face,
Slow and steady won't help you win
this race,
Mouse parts fly past your face and I ...
Mouse parts fly past your face,
Every time scramble leaves you in last
place,
Mouse parts fly past your face and I ...

[Chorus]

Fianchetto by panipaji

[Chorus:]

Darling, if you want your rating to grow,
It's like getting free Elo,
Central control, no loss of tempo,
That's my fianchetto.
Making some Luft, squares aren't weak though,
That's where my bishop goes,
Can't attack me, baby I know,
That's my fianchetto.

My backrank sees no infiltration,
'Cause my king has good ventilation,
As he camps most safely in this secure fortress,
You just can't beat hypermodern chess.

[Pre-chorus:]

e4 e5 don't do it for me,
The Caro-Kann would simply bore me,

The French is worse - bishop gets buried.

Don't get me wrong, I'm not like Diddy,
But I'm in love with that K.I.D.,
A modern Twilightesque love story.

[Chorus]

Holy shit, is it that strong? I guess so.

Your opening has gone so wrongly,
I can't believe you would Lefong me,
I'll take the free piece, and then say,
"thank you,"

And later on, my sniper will spank you.

[Pre-chorus]

[Chorus (x2)]

Is it that strong? I guess so,
Mm, that's my fianchetto.

White Horsey Site by annamaja

I know I signed an NDA,
But that's getting harder to keep with every passing
day,

'Cause I know that there's another site,
Where girls and boys can trade their queens all
throughout the night.

My browser history is redirecting me,
I just type l-i-c, and then autocomplete,
The website loads so fast, it feels like a sweet dream,
I fear what Danny'd say if I showed this on stream

[Pre-chorus:]

"Girl, what have you done,
You're a White Horsey girl, with analysis free,"
Oh Danny, my heart has been won,
By the site with no ads, it's where I belong, oh on the

[Chorus:]

White Horsey site, I'm gonna keep on playing on the
White Horsey Site, I'm gonna keep on playing with the
Instant premoves, I'm gonna keep on playing on the
White Horsey site, White Horsey site.

Simuls with twenty boards or more,
Playing against viewers will no longer be a chore,
And when I am playing OTB,
All my games are broadcast live for everyone to see.

I thank my lucky stars for this French charity,
My favourite dot org, providing chess for free,
The site is open-source, so you can help the team,
I fear what Danny'd say if I showed this on stream.

[Pre-chorus]

[Chorus, with "awesome studies"]

Don't think I'm never coming back,
Where else can I find bughouse or pieces that go
quack?

And Danny, every Wednesday,
I will play Arena Kings, so do not feel dismayed,
saying,

"Girl, what have you done?
You're a White Horsey girl, with analysis free,"
Oh Danny, I don't just need one,
I can play on two sites, by my heart belongs, oh to the

[Chorus, with "great API"]

I'm gonna keep on playing,
I'm gonna keep on playing.

When I Play d4 by CHEXi

When I get more prepped, learning new
lines, not the Snail or Cow,
Will you still be sending me challenges,
Three minute blitz, no increment?
If I leave the pawn that's on file e,
Would you click 'Abort?'
Will you understand, will you still shake
hands, when I play d4?

You'll learn new stuff too,
So if you would be game,
I could play with you.

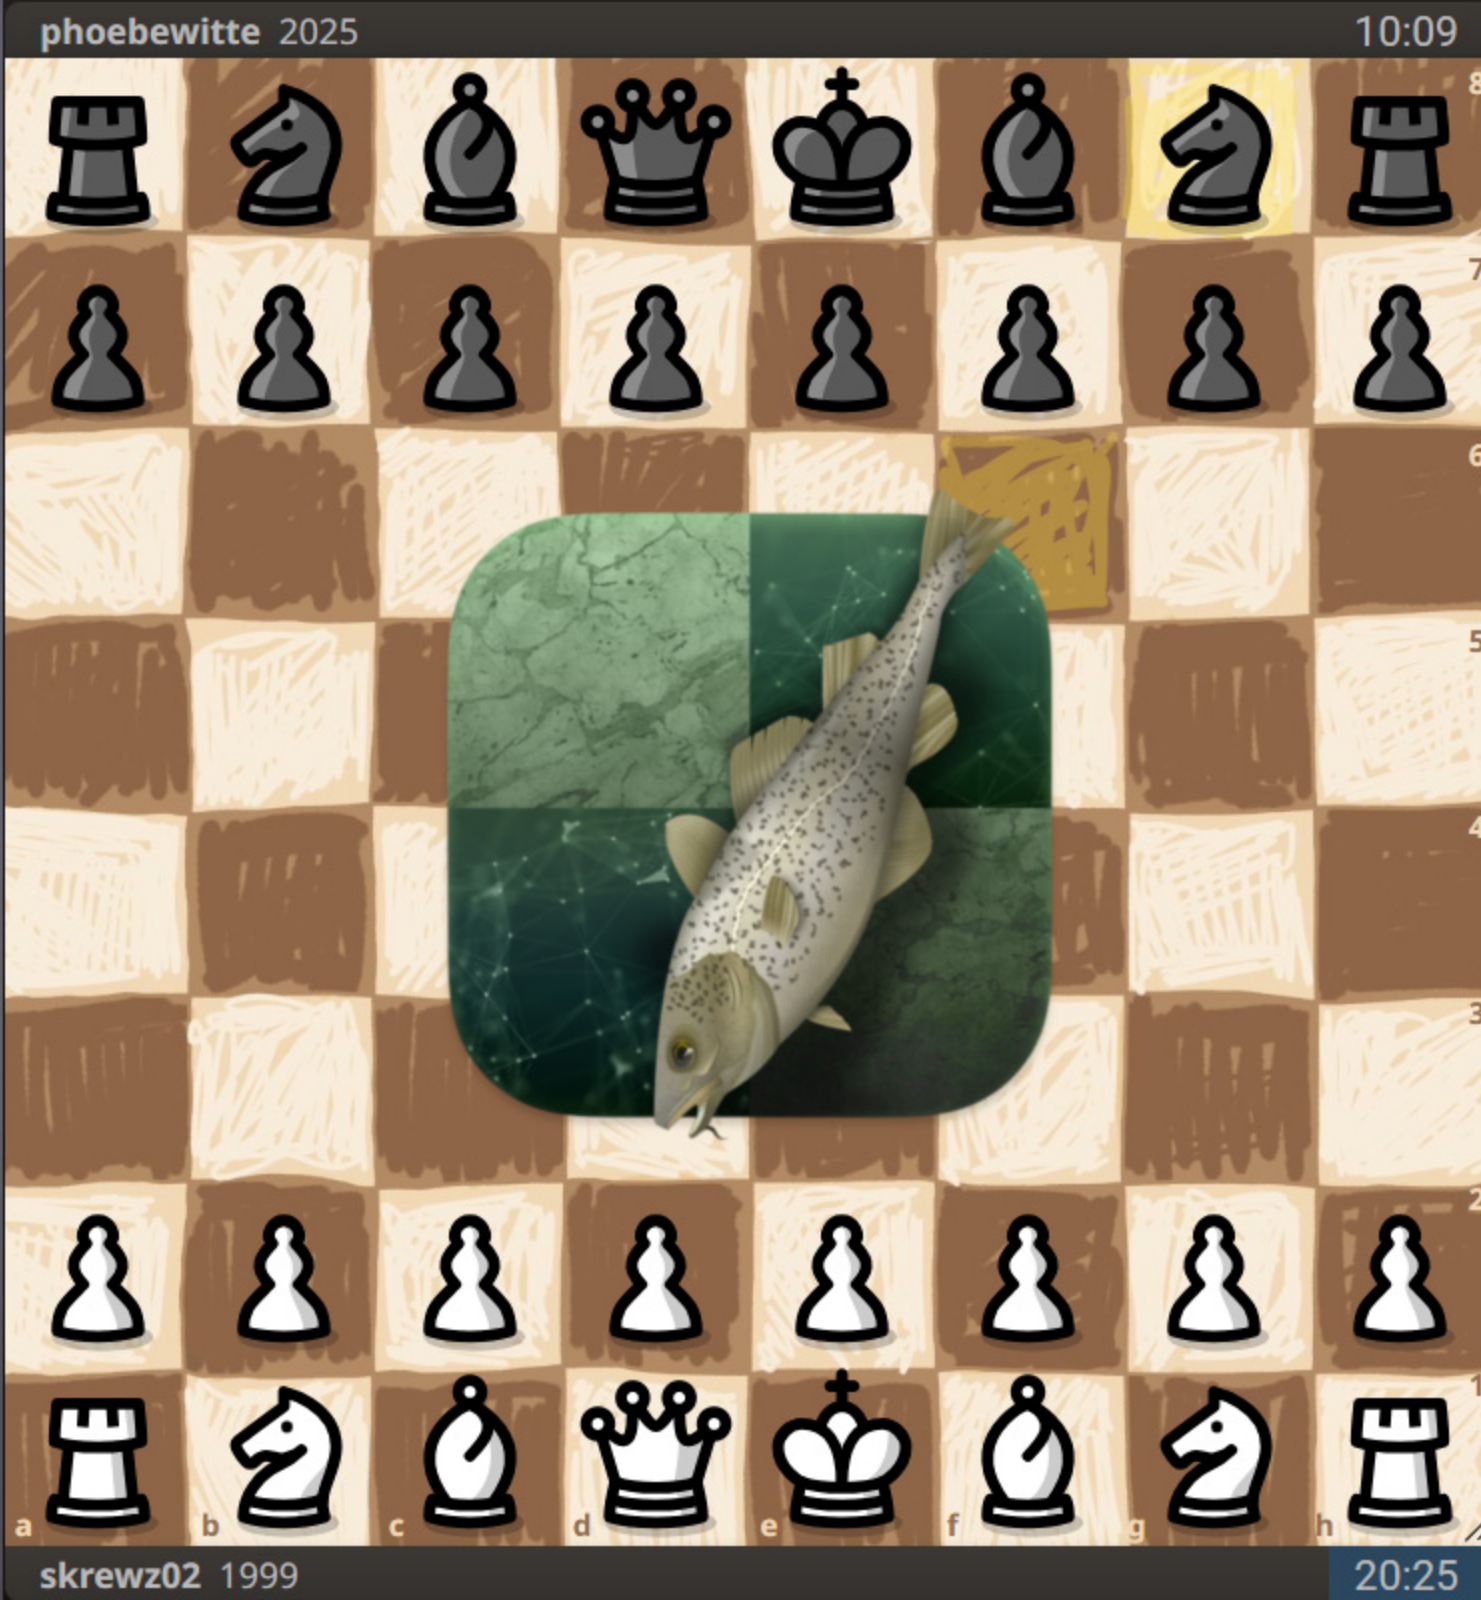

I'll try a gambit, you can decline,
Instead push your pawns,
I'll use my minority on the queenside,
Carlsbad structure, what a delight!
Breaking the centre, hunting your king,
Mate's coming for sure,
Will you understand, will you still shake
hands, when I play d4?

Every weekend, we can buy a new
course,
From that Chessable, they're always on
sale,
We'll learn everything,
Grandmaster repertoires,
Kramnik, So, and Ding.

Although that Fischer may not agree,
d4 is the best,
Slow and steady chess is what I want to
play,
Improve pieces for the endgame.
Throw out your tactics, play the
London,
Be forever bored,
Will you understand, will you still shake
hands, when I play d4?

Stockfish by skrewz02

[Chorus:]
Stockfish, Stockfish, 4K Elo Stockfish,
Stockfish, Stockfish, hide it up your
bum.

[Chorus]

In the morning, farming all of the
noobs,
In the evening, account has been
banned.

[Chorus]

Give a Stockfish any chess position,
It won't blunder, it can't lose.

[Chorus]

I installed Stockfish on all my devices,
Didn't have to pay, it's open-source.

[Chorus]

Don't have to hide a cell phone in the
toilet,
You can get the eval through a little
buzz.

[Chorus]

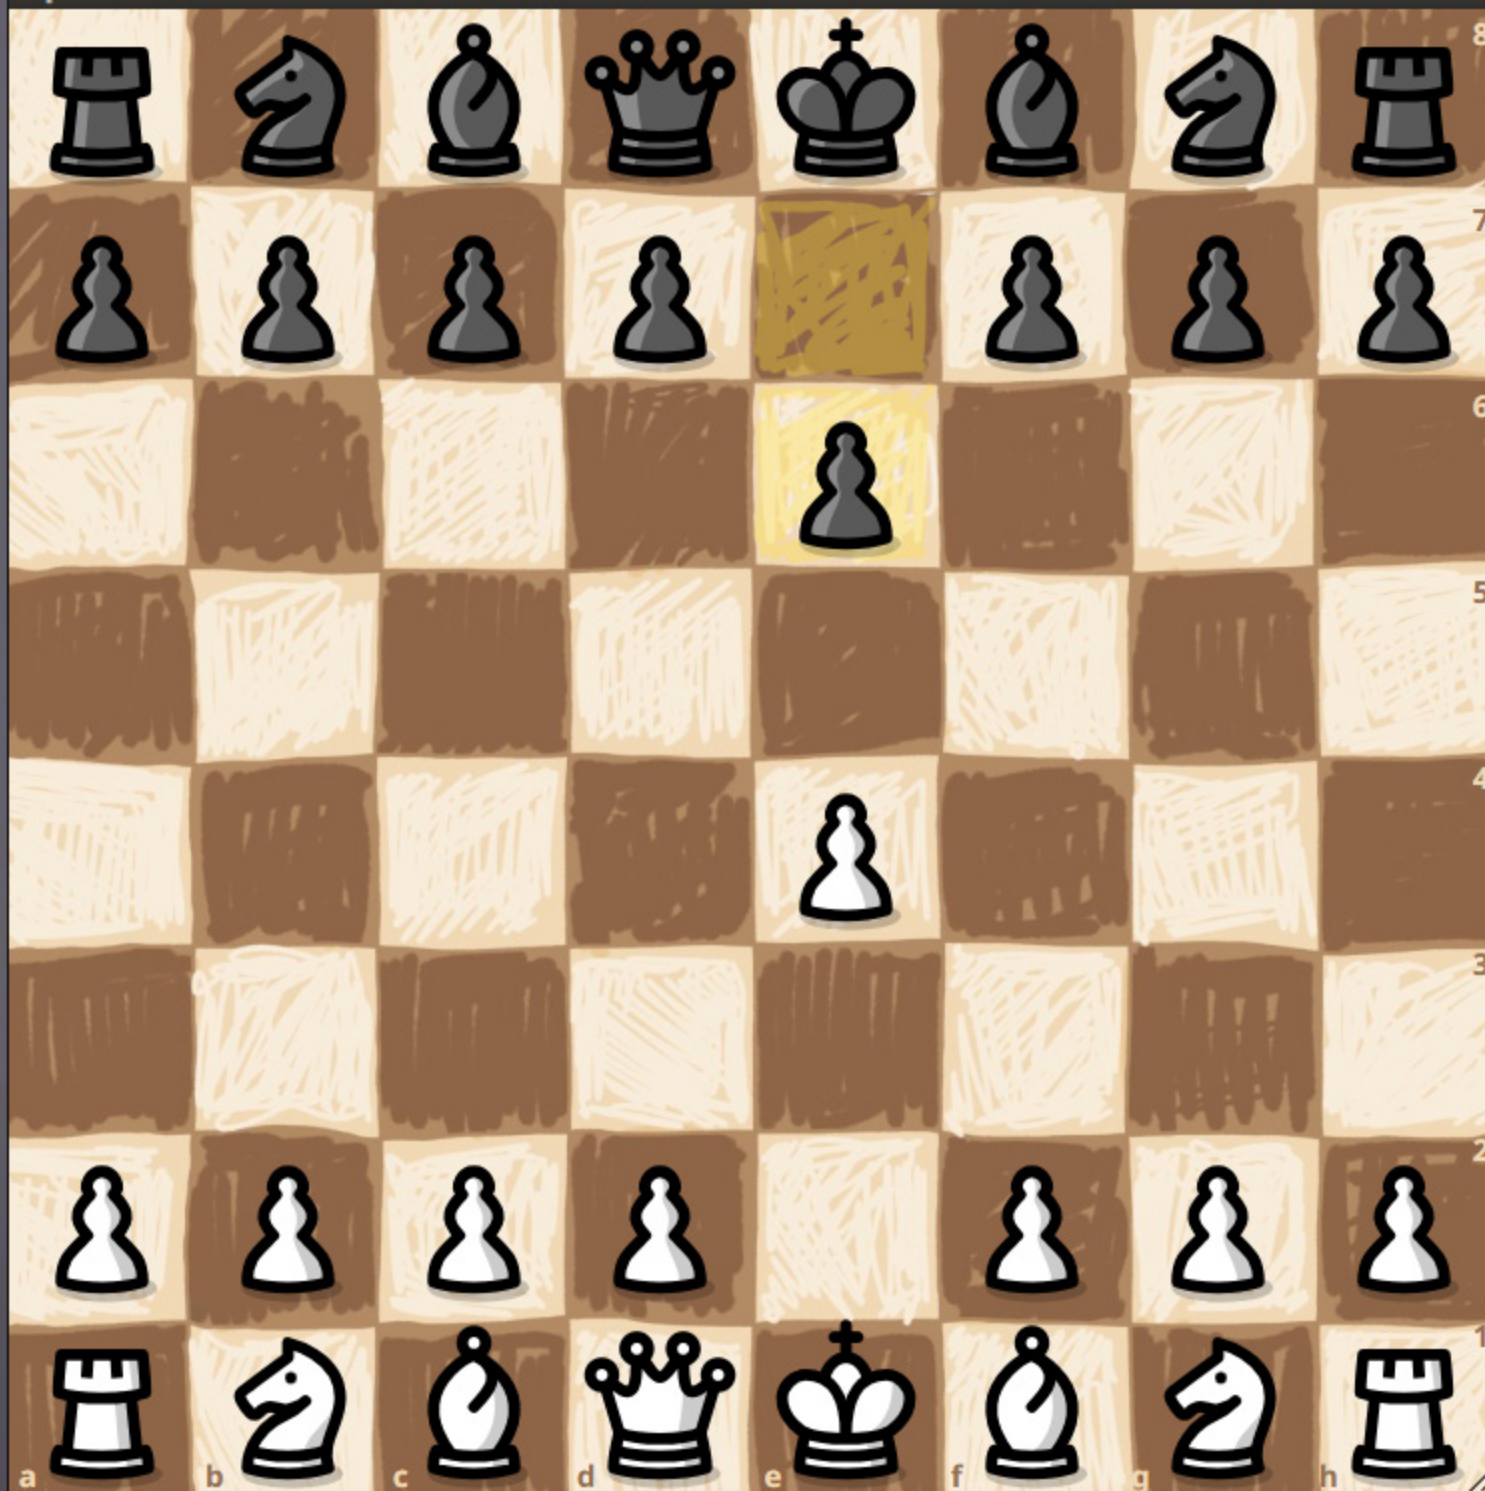

4K Elo Stockfish is never seen playing
Chess960 in rooftop swimming pools
with Caruana topless, yeah.

[Chorus (x4)]

Yeah.

e6 Treason by livharris

When you promised me that I was more than
just three pawns combined,
You must have had yourself a minor stroke
reviewing opening lines,
'Cause your hand stopped prematurely when
pushing the e-pawn,
Dropped it on the sixth rank and my diagonal
was gone!

Now I'm stuck behind a pawn chain that I
just cannot get past,
When it comes to piece development, I'm
afraid I'll finish last,
And if I ever do move, it is just to connect
rooks,
I wish they'd take this opening and scrub it
from the books!

[Chorus:]

Now I hate the French, it's the treason of e6,
And if I had to guess, you've forgotten I
exist,
And now my game's over, before it's even
begun,

I am the Läufer, so I wish you'd let me run.
But like Mona Lisa, imprisoned in the Louvre,
I am trapped on a square from which I will
not move,
Although the light squares are my natural
domain,
It is on c8 that I will always remain.

You claim Ding played the French, but that
came at a great cost,
'Cause in case you need reminding, it was in a
match he lost,
So if you want to win your games, you
needn't follow those chess gods,
Just simply set me free, and stop giving
White piece odds!

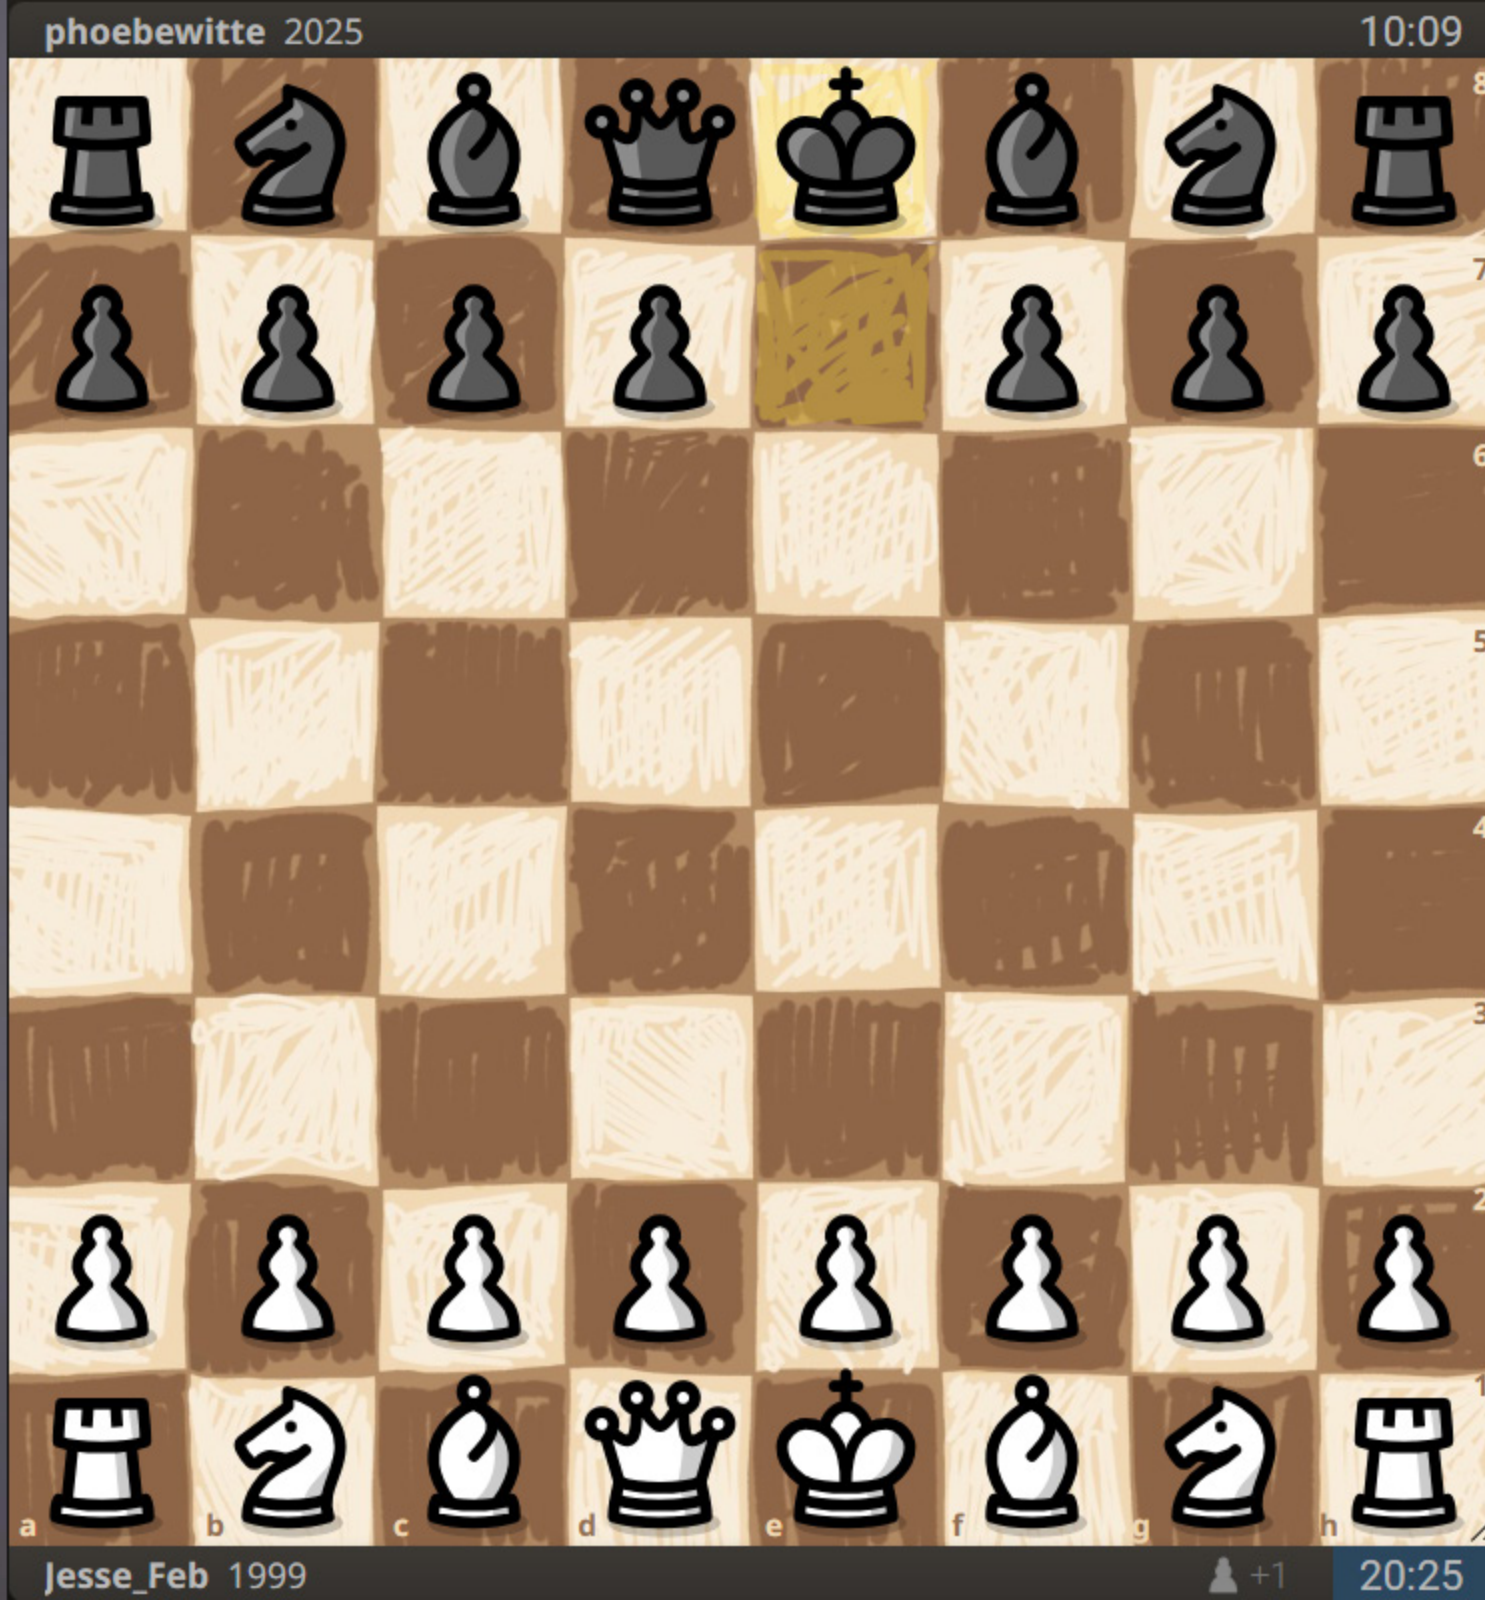

[Chorus]

Oh I will remain,
All throughout the game,
I hope this French is just a phase,
But I doubt it.

Anish by Jesse_Feb

[Chorus:]
Anish, Anish, Anish, Anish,
I'm beggin' of you, please don't take
that pawn,
Anish, Anish, Anish, Anish,
Without it our games cannot go on.

Your game recaps are way too quick,
There's no guy you can't ironic,
On Twitter your humour is unleashed.
The witty banter's off the charts,
It's no surprise you stole our hearts,
But you don't need to steal pieces,
Anish.

Because of the monopoly,
That is enjoyed by DGT,
Replacements we cannot afford,
Anish.

So if your opponent sacs it,
Don't put the pawn in your jacket,
Please just leave it by the board,
Anish.

[Chorus]

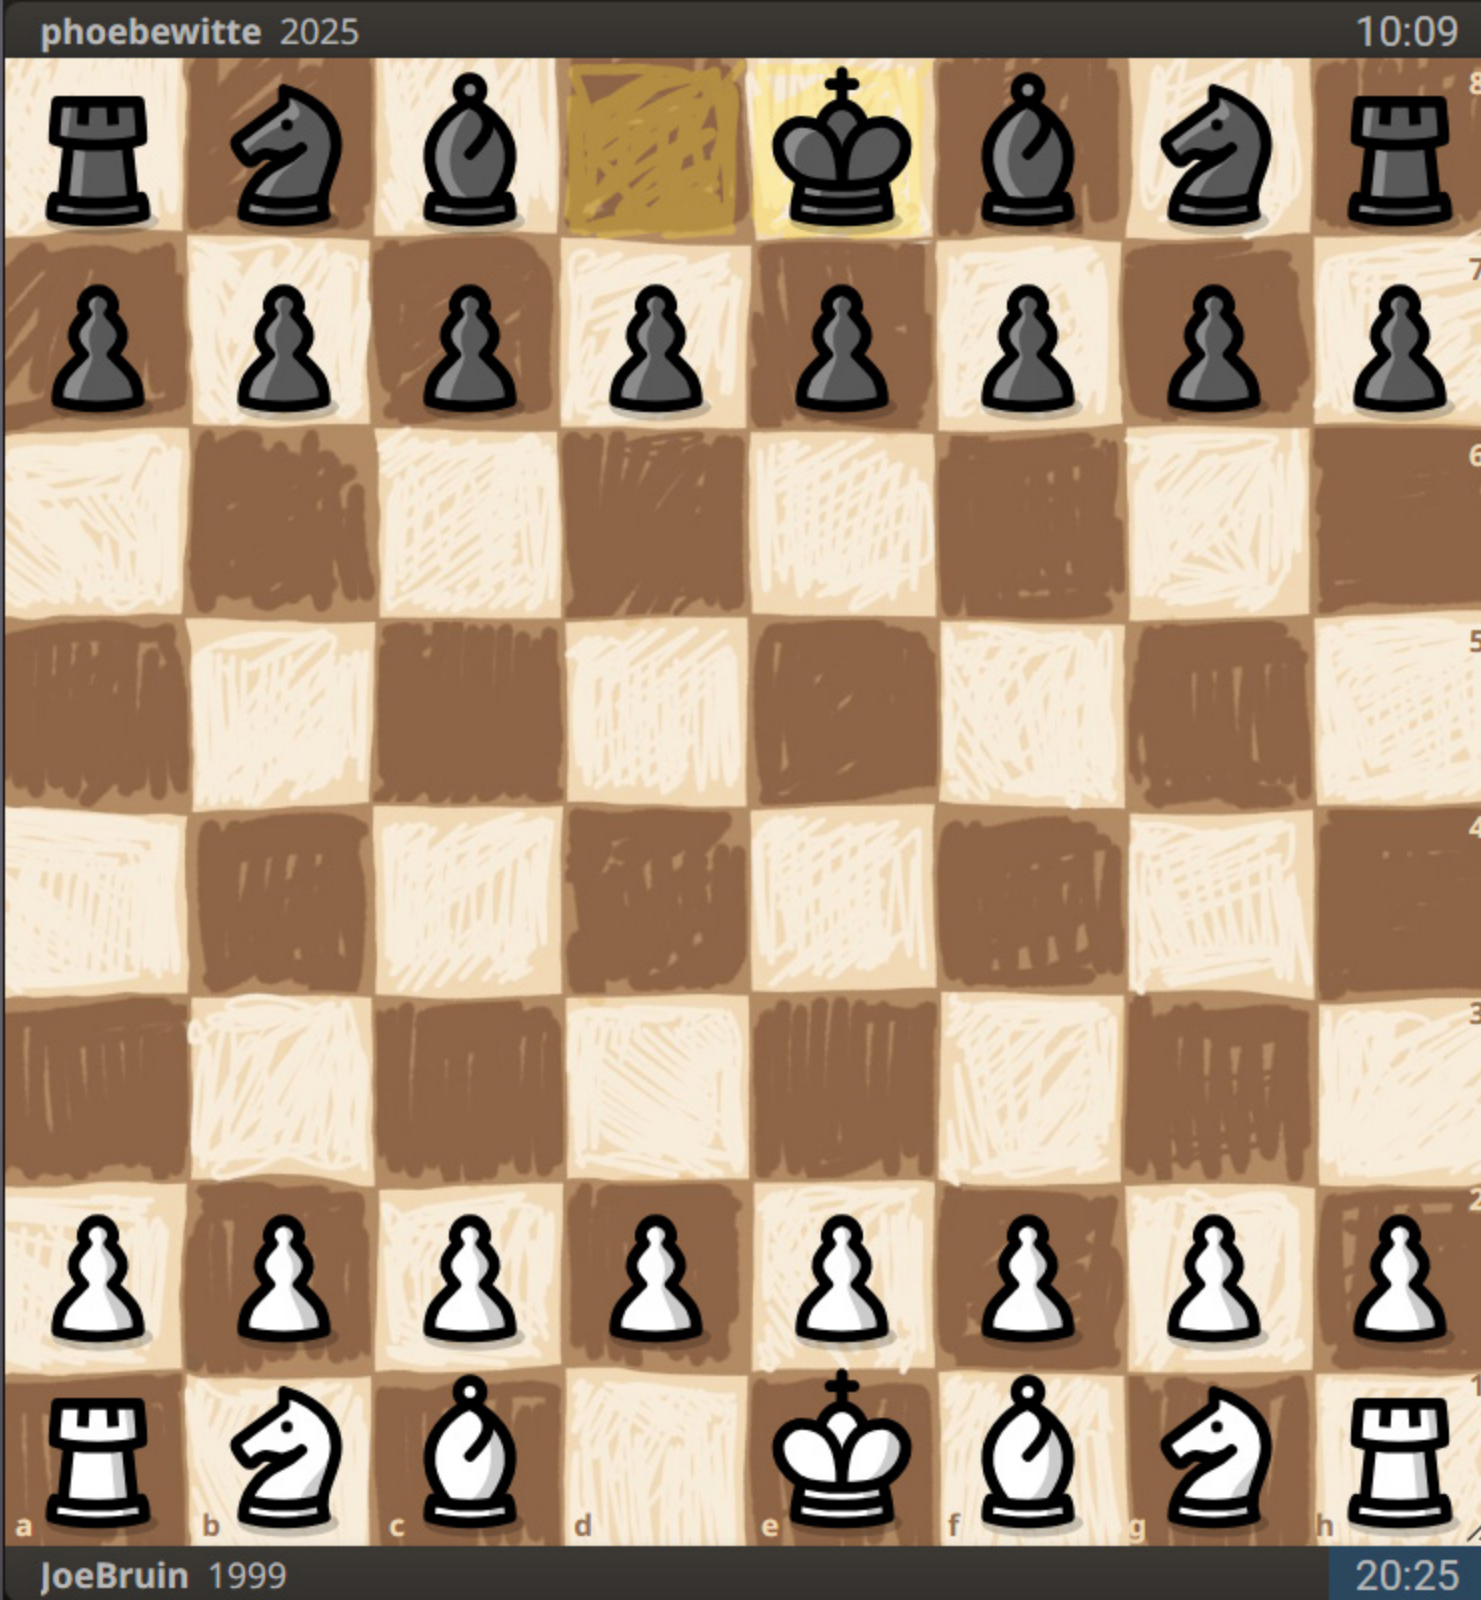

So players, if you must attack,
This renowned kleptomaniac,
Keep your pawns safely outside his
reach.
'Cause when he grabs that little guy,
It's gone in the blink of an eye,
He simply won't be denied, Anish.

[Chorus]

Anish, Anish, Anish.

Trading Queens by JoeBruin

[Chorus, part 2:]

You can mate, up a pawn,
As long as the queens are gone,
Ooh, you have trained your endgames,
And so you trade the dames.

Play the Ruy and the knights come out,
Opening's fine but you still have doubts,
What if you blunder your queen?
That would be obscene,
You'd better play it safe.
Game keeps going, ply by ply,
Pawns en prise and the tension's high,
Suddenly a quick tactic,
Material is yours,
Passed pawns must be advanced,
So when you get the chance,

[Chorus, part 1:]

You try to trade the queens,
Disliked by Stockfish 17,
Trading queens,
Never mind that dumb chess machine,
oh yeah.

[Chorus, part 2]

There's mate-in-one but you don't care,
There's no winning while the queens are
there,
Look for queen opposition,
Any square will do,
You're in the mood to trade,
And when a move is made,

[Chorus, part 1]

[Chorus, part 2]

And so you trade the dames
